Wayzata High School IC GIPS Champions!

Senior Division GIPS Team Earns International Championship!

"Due to the fact that Oberon Corporation has a near-monopoly on extra-terrestrial activities, they may have disproportionate control of space exploration which could decrease the development of new technologies and could discourage new ideas from being implemented. How might we encourage other entities (besides Oberon Corporation) to be more involved in space exploration so that the expansion into space can involve a range of perspectives in the late 21st Century and beyond?"

Lydia Boike, Isaac Foote, and Trisha Morrison,
Coached by: Jonathan Honza, MN FPSP Alumna
